DLA Land and Maritime - VQ Supplemental Information Sheet for Electronic QPL-11693

Specification Details: Date: 8/29/2012

Specification: MIL-PRF-11693

Title: Capacitor, Feed Through, Radio-Interference, Reduction, Hermetic, A.C./D.C. (Hermetically Sealed in Metal Cases)

Federal Supply Class (FSC): 5910

Conventional: No

Specification contains quality assurance program: No MIL-STD-790 Established Reliability & High Reliability: Yes MIL-STD-690 Failure Rate Sampling Plans & Procedures: Yes

Weibull Graded: No

Specification contains space level reliability requirements: No

Specification allows test optimization: No

Contact Information:

Office of Primary Involvement: Passive Devices Branch, DLA Land and Maritime - VQP

Primary Qualifying Activity Contact: 614-692-0609, e-mail: vqp.do@dla.mil Secondary Qualifying Activity Contact: 614-692-0597, e-mail: vqp.jz@dla.mil

Notes:

Style: The style is identified by either the three-letter symbol "CZR" or the two-letter symbol "CZ" followed by a two-digit number. The letters identify dc, radio-interference reduction feed through capacitors, hermetically sealed in metal cases. The symbol "CZR" identifies established reliability (ER) capacitors; the symbol "CZ" identifies capacitors for which no specific reliability requirements are specified (non-ER). The first digit following the letter symbols identifies the general shape of the case, and the second digit identifies specific details other than case size. Each style designation may include a family of case sizes.

Current: The current rating is identified by a single letter.

Characteristic: The characteristic is identified by a single letter.

Voltage: The voltage rating is identified by a single letter.

Capacitance: The nominal capacitance value expressed in picofarad (pF) is identified by a three-digit number; the first two digits represent significant figures and the last digit specifies the number of zeros to follow.

Failure rate level: The failure rate level of 1.0 percent per 1,000 hours is identified by a symbol M, and is based on operation at rated working voltage and maximum rated temperature.

Contact the manufacturer or refer to the manufacturers website for a list of Authorized Distributors.

Part Configuration:

CZR23 B K B 473 M

ER Style	Current	Characteristi c	Voltage	Capacitance	Failure Rate Level
CZR23	В	K	В	473	М
CZ23 B K B 473					
Non-ER Style	Current	Characteristi c	Voltage	Capacitance	
CZ23	В	K	В	473
